

Green Lipped Mussel (GLM) is found in the pristine waters around New Zealand and is a natural source of Chondroitin Sulphate and unique Omega 3's only found in GLM, including the nutritionally important EPAs and DHAs. It provides natural support for stiff, sore and aching joints in all hard working dogs.

Riaflex GLM can be fed alone or, for optimum support, it is a perfect partner to Canine Joint Plus HA.
