

### Riaflex 50:50...

...is a high strength combination of Glucosamine HCl and MSM, specifically selected to provide nutritional support for the maintenance of healthy, supple and flexible joints.

#### GLUCOSAMINE (HCL):

Provides the major building blocks for joint structure, giving cartilage strength and resilience.

#### MSM (METHYLSULPHONYL METHANE):

A bio available sulphur essential for the health and elasticity of tendons, ligaments, muscles, and soft tissue surrounding the joint capsule.

#### ANALYSIS:

Protein 0%, Oil 0%, Fibre 7%, Ash 0.4%
